

## **Electricity Reform Act 2000**

### **Section 87 Exemption GPT and Innogen Australia Pty Ltd**

Pursuant to section 87(1) of the *Electricity Reform Act (NT)* ("the Act"), the Utilities Commission of the Northern Territory ("the Commission"), with the approval of the Minister, grants the following exemptions on the terms and conditions set out in this document:

1. GPT RE Limited (A.C.N. 107 426 504) as responsible entity of the General Property Trust and GPT Funds Management Limited (A.C.N. 115 026 545) as responsible entity of the GPT Wholesale Shopping Centre Fund No. 1 (collectively referred to as "GPT") are jointly and severally exempt from the requirement to hold a licence under section 14(1) of the Act with respect to the generation of electricity that is generated by the solar photovoltaic arrays installed and operated at Casuarina Square shopping centre located at 247 Trower Road Casuarina in the Northern Territory ("the Premises").
2. Innogen Australia Pty Ltd (ACN 132 757 530) ("Innogen") is exempt from the requirement to hold a licence under section 14(1) of the Act with respect to the generation of electricity that is generated by the solar photovoltaic arrays installed and operated at the Premises.
3. Innogen is exempt from the requirement to hold a licence under section 14(1) of the Act with respect to the selling of electricity that is generated by the solar photovoltaic arrays installed and operated at Premises, provided that the sale of any such electricity is to, and only to:
  - a. GPT for use only at the Premises; or
  - b. in the case of any excess electricity that is not used at the Premises and is exported to the electricity network, a person licensed to sell electricity under the Act.
4. In accordance with section 87(1) of the Act, each exemption granted in this document is subject to the following terms and conditions:
  - (a) the maximum generating capacity of the solar photovoltaic arrays installed and operated at the Premises must not exceed 2 megawatts;
  - (b) the electricity generated by the solar photovoltaic arrays installed and operated at the Premises must be used primarily at the Premises;
  - (c) the solar photovoltaic arrays installed and operated at the Premises must be connected to the electricity network and capable of distributing any residual excess electricity not used at the Premises to the network;
  - (d) each person to whom an exemption has been granted must, from time to time as requested by the Commission, provide to the Commission:
    - (i) such information as the Commission requests, including (without limitation) information relating to the generation or sale of electricity at the Premises; and
    - (ii) provide the information referred to in paragraph 4(d)(i) in a manner and form, and within the time frame, requested by the Commission;
  - (e) the total electricity generated from these Operations that is exported to the distribution network must be sold under contract to a licensed electricity retailer; and

- (f) each person to whom an exemption has been granted must comply with any relevant safety and technical requirements of the Act and the *Electricity Reform (Safety and Technical) Regulations* (NT).
5. In accordance with section 87(3) of the Act, each exemption granted in this document may be varied or revoked by the Commission by notice in writing.
6. Each exemption granted in this document will remain in force until it is revoked by the Commission.

Date: 10 October 2014
